BUY 50 INSERTS - SAVE AN EXTRA 15%

BUY 100 INSERTS - SAVE AN EXTRA 25%

MIX AND MATCH WITH SELECT **KCP25C** & **KCU10B** TURNING GRADES

KCU10B upgrades Kennametal's existing KCU10 with a newly engineered KENGold™ PVD, multilayer coating that makes machining from one material to another easy while also achieving consistency in cutting.

KCP25C is the first-choice carbide grade for turning inserts in general purpose applications in a variety of steel materials, featuring multi-layered, advanced CVD coating technology and delivering consistent, repeatable performance.
